Profile

Allison Kalbhen is a skilled Technical Writer with expertise in patent application preparation and prosecution. She provides valuable assistance to clients by preparing recommendations and responses for office actions, writing claims, and proofreading applications. With a background in electrical engineering, Allison brings a technical perspective to her work, making her well-equipped to serve clients in various industries such as electrical and mechanical engineering, aviation systems, and irrigation systems. Her broad knowledge and attention to detail ensure that clients receive comprehensive and accurate support throughout the patent application process.

Recently graduating from UC Irvine with both a B.S. in Electrical Engineering and a B.F.A. in Dance Performance, Allison's education and training in the arts in addition to engineering has provided her with a unique perspective and means of critical thinking. She utilizes these critical thinking skills at Fitch Even in her work with patent preparation and prosecution.

Representative Matters

- Assisted with drafting claims of U.S. patent applications directed to power generation products for a worldwide leader in irrigation technology.
- Assisted with prosecution of U.S. patent applications directed to consumer products and inventory systems for a multinational retail company.
- Assisted with review of applications of a leading multinational energy company.

Education

B.E., Electrical Engineering
specialized in Circuit Design,
UC Irvine, 2023

B.F.A, Dance Performance, UC
Irvine, 2023
