Profile

“The best part of practicing law is obtaining a successful result for the client, ‘successful’ meaning a favorable result achieved by the attorney-client team and executed in a way that doesn’t break the client’s bank.”

Timothy R. Baumann strives to provide clients with a full range of high-quality intellectual property services at a reasonable cost. He has extensive experience assisting clients in the acquisition, protection, and management of all forms of intellectual property, particularly through complex patent prosecution as well as through the preparation of infringement and validity opinions, reexamination proceedings, and patent licensing agreements.

Tim’s substantial litigation experience includes motion practice, taking and defending depositions, discovery practice, and trial work.

Prior to joining Fitch Even, Tim worked as a design engineer at global avionics corporation Rockwell Collins in Cedar Rapids, Iowa, and as a software engineer at leading telecom Motorola in Schaumburg, Illinois. Tim leverages this experience while advising clients involved in technologies including acoustic devices (microphones and receivers), automotive electronics, consumer electronics, medical devices, computer software, and power systems.

Representative Matters

- Represents a Fortune Global 500 electronics manufacturer in obtaining patent protection in complex software technologies.
- Represents a multinational automotive parts manufacturer in obtaining patent protection in various automobile-related technologies. Has also represented this manufacturer in post-grant proceedings at the USPTO.
